Customizing dreams for everyday

Cargraphic showcased a wide car range at Tuning World Bodensee

The German company **Cargraphic** presented its product range at one of the most important exhibitions of the year for Car customisers, the Tuning World Bodensee. Primarily known for their dream cars, the tuners presented themselves particularly down-to-earth in Friedrichshafen: On their perfectly arranged stand, two everyday heroes were on display beside the Aston Martin V8 Vantage - an AUDI A4 and a VW Golf.

Thanks to its newly designed high-grade steel exhaust system, the V8 Vantage generated 362 kW / 466 PS and symbolises, in combination with its tight-fitting aerodynamics-package and three-part type GT-R alloy rims, the high requirements and exclusiveness of the **Cargraphic** refinement. But even cars for all and sundry allow purposeful upgrades, as with the A4, which was made clear by this well-established enterprise of the tuning scene: the engineers achieved from the basic engine with its 88 kW / 120 HP a respectable 151 kW / 205 HP. And the Golf V 1.4 TSI also generated a good 127 kW / 173 HP. A special performance software was responsible for that, which was developed together with **Kubatech**. An eyecatcher on both vehicles is the one-piece rim **IS-ONE** which, like all **Cargraphic** wheels, comes out of their own production and offers the "made in Germany" quality seal.

Tuning World Bodensee proved once again that **Cargraphic** knows how to play the whole range of vehicle refinement – and in the process ensures that the focus stays on the respectability and quality of their products. Cooperation partner **FOLIATEC**[®].com had another tuned "dream" vehicle displayed on their stand. The **Cargraphic 997 DFI Cabrio** with its sensational skull skin street style foil.
